**Admin Credentials** Email: [admin@example.com](mailto:admin@example.com) Password: abd123ABC

## Features

1. **Responsive Design** The platform is fully responsive, ensuring seamless accessibility on mobile, tablet, and desktop devices.
2. **User Dashboard** Users can create and manage their biodata and view their match requests with ease.
3. **Admin Dashboard** Admins can view platform analytics, including the total number of biodatas, gender-specific stats, premium memberships, and revenue.
4. **Success Stories Section** Users can post their success stories, including images and reviews, which are displayed for others to view.
5. **Success Counter** Displays live statistics, including the number of male and female biodatas, total biodatas, and marriages facilitated through the platform.
6. **Secure Authentication** The platform uses Firebase Authentication for secure login and sign-up.
7. **CRUD Operations with Notifications** All create, read, update, and delete (CRUD) actions are confirmed with stylish toast notifications or modals for a smooth user experience.
8. **Premium Memberships** Users can upgrade to premium to access exclusive features.
9. **Admin Insights** Includes a pie chart displaying biodata and revenue breakdowns.

**Tech Stack** Built with: MongoDB for the database. Express.js for the backend. React.js for the frontend. Node.js for the server.
