Professional Summary

I am a new Management Information Systems (MIS) graduate from USN University. I am looking for an opportunity to explore the options to enhance the knowledge and skills to contribute to this contemporary technological advancement with an organization.

Education

- Master of Science, Management Information System (University of South-Eastern, Norway , 2022-2024)

Thesis with Kartverket (<https://www.kartverket.no/>) about "Key factors and challenges in cloud adoption: a case study of kartverket"

- Bachelor of Science, Electronics and Communication Engineering (Southern University Bangladesh)

Work Experiences

Crebsol Ltd. - Web Developer (October 2021- June 2022)

- Translating design concepts into functional code utilizing HTML, CSS, JavaScript and React.js. Collaborated with backend development teams to integrate Node.js services into the frontend, ensuring smooth communication between frontend and backend systems.
- Worked with MongoDB for basic data retrieval and display on the frontend, while bridging with backend teams to manage more complex database interactions. Participate in identifying the iteration length and number for the assigned project, implement and test features to make responsive websites that work smoothly across different browsers and devices.

Srijonshil Model School - Information Technology Teacher (August 2014 – September 2021)

- Deliver engaging IT lessons, fostering a technology-friendly learning environment for students.
- Making students familiar with basic computer components. Providing basic knowledge of different operating systems and useful applications. Networking fundamentals with internet basics.

Design Source Team Ltd – Junior Frontend Developer (April 2012- July 2014)

- Convert design from figma to functional code. Build and style web pages using HTML, CSS and JavaScript.
- Collaborate with designers, developers, and other team members to deliver high-quality user interfaces and work on selecting appropriate color schemes, fonts, and typography. Continuously learn and apply new front-end technologies and best practices.

Skills

Languages: HTML, CSS, JavaScript

Frameworks & Libraries: React.js, Node.js

Databases: MongoDB

CI/CD Tools: GitHub, GitHub Action

Cloud & DevOps: Basic knowledge of cloud platforms and DevOps principles

Language Proficiency

- English: Professionally Fluent
- Norwegian: A1 Completed, A2 ongoing
- Bangla: Native speaker

Projects

1. **Design Source Official Website** : Developed the official website for Design Source, translating designs into functional web pages using HTML and CSS. Technology used: **HTML, CSS, JavaScript**

2. **Donation Website**: Built a fully responsive website for Denation using React.js, Node.js with Express, and MongoDB. Technologies used: **HTML, CSS, JavaScript, React.js, Node.js, Express.js and MongoDB.**
